

# Arbre ascendant 7 générations

**JOFFROY** Nicolle

The diagram is an ancestry chart for 7 generations. It starts with a single individual, Nicolle JOFFROY, in the first generation. From her, the chart branches into two lines. Each line continues to branch into two more lines in each subsequent generation, creating a total of 128 individuals in the seventh generation. The names of the individuals in the second, third, and fourth generations are not visible, but the structure is clearly defined by the connecting lines. The chart is presented in a horizontal layout, with the root on the left and the final generation on the right.
