

# Arbre ascendant 7 générations

BLANQUART Marie

The diagram is a vertical ancestral tree. At the top is a single box labeled 'BLANQUART Marie'. From this box, a vertical line descends and branches into two lines. Each of these lines branches again into two more lines, creating a total of four lines in the second generation. This pattern of binary branching continues through seven generations, resulting in a total of 128 boxes at the bottom level. The boxes are arranged in a staggered, tree-like structure, with each level having twice as many boxes as the level above it. The boxes are empty, except for the root box which contains the name 'BLANQUART Marie'.
