

Arbre ascendant 7 générations

BOULANGER J.Baptiste

The diagram is an ancestry chart for BOULANGER J.Baptiste. It shows a tree structure where each generation branches into two children. The chart is organized into seven vertical columns representing generations. The first column on the left contains the name 'BOULANGER J.Baptiste'. The subsequent columns contain boxes for each descendant, with lines indicating the parent-child relationships. The boxes are arranged in a staggered, zig-zag pattern from left to right. The rightmost column contains the final generation of descendants.
