

Arbre ascendant 7 générations

LEFEBVRE Joseph +1846

The diagram is an ancestral tree starting from a single individual, Joseph Lefebvre, in 1846. The tree branches out to the left, representing the paternal line, and to the right, representing the maternal line. Each generation is represented by a horizontal row of boxes. The boxes are connected by vertical lines, and the connections are made using a 'stepped' or 'Z-shaped' line style. The tree shows a clear progression from one generation to the next, with the number of individuals increasing as the generations progress. The boxes are empty, suggesting that the names and other details of the ancestors are yet to be filled in.
