

Arbre ascendant 7 générations

VERDIER Hyppolite

The diagram is a horizontal ancestral tree. It starts with a single box labeled 'VERDIER Hyppolite' on the left. This box branches into two boxes in the next generation. Each of these two boxes branches into two more boxes, resulting in four boxes in the third generation. This pattern continues for the remaining four generations, with each box in a generation branching into two boxes in the next. The boxes are empty, representing a template for recording names. The tree is symmetrical and expands outwards from left to right.
