

# Arbre ascendant 7 générations

**ANSELIN Marguerite**

The diagram is an ancestry chart for Marguerite Anselin. It is a tree structure where each node is a rectangular box representing a person. The root node is Marguerite Anselin. From her, the tree branches out into two main lines. Each line continues to branch out, representing her children, grandchildren, and so on, up to seven generations. The boxes are arranged in a way that shows the lineage clearly, with lines connecting parents to their children. The chart is a visual representation of a family tree, showing the descent from Marguerite Anselin through seven generations.
