

Arbre ascendant 7 générations

DRUJON FRANCOISE

The diagram is an ancestral tree starting from a single individual, 'DRUJON FRANCOISE', at the bottom. The tree branches upwards through seven generations. Each generation is represented by a horizontal row of boxes. The boxes are connected by vertical lines, and the connections between generations are shown as horizontal lines that cross the vertical lines of the previous generation. The boxes are empty, except for the root node which contains the name 'DRUJON FRANCOISE'. The tree is symmetrical, with two children for each parent in each generation.
