

# Arbre ascendant 7 générations

**FOUCHEYRAND Claude**

The diagram is an ancestry chart starting from a single individual, Claude Foucheyrand, at the bottom. From this individual, the chart branches upwards through seven generations. Each generation is represented by a horizontal row of rectangular boxes. The boxes are connected by vertical lines, indicating the lineage. The number of boxes in each row increases from 1 in the first generation to 16 in the seventh generation, representing a binary branching pattern. The boxes are empty, intended for the user to enter names and other details for each descendant.
