

Arbre ascendant 7 générations

DELACOTTE Marie

The chart is a vertical, left-to-right branching diagram. It starts with a single box labeled 'DELACOTTE Marie' on the left. From this box, a vertical line goes up and then branches into two horizontal lines. Each horizontal line leads to a box representing a child. This process repeats for each generation, with each box branching into two more boxes. The boxes are arranged in a staggered, tree-like pattern. The boxes are empty, except for the root box which contains the name 'DELACOTTE Marie'. The chart shows a total of 128 boxes in the 7th generation, representing 128 descendants.
