

# Arbre ascendant 7 générations

**BOURGEOISE Anne +~1696**

The diagram is an ancestral tree starting from a single individual, Anne Bourgeoise, in the 7th generation. The tree branches upwards through 6 generations to a single root node. Each node is represented by a rectangular box. The boxes for the 7th generation are filled with the name 'BOURGEOISE Anne +~1696'. The boxes for the 6th, 5th, 4th, 3rd, and 2nd generations are empty. The boxes for the 1st generation (the root) are also empty. The tree is drawn with black lines connecting the boxes, showing a clear lineage from the root down to the 7th generation. The boxes are arranged in a staggered, horizontal pattern, with each generation having more boxes than the one above it. The boxes for the 7th generation are the largest, while the boxes for the 1st generation are the smallest.
