

Arbre ascendant 7 générations

DUCHÊNE François °1876

The diagram is an ancestral tree starting from a single individual, François DUCHÊNE, born in 1876. The tree branches out to show his parents, grandparents, and so on, up to seven generations. Each generation is represented by a horizontal row of boxes. The boxes are connected by vertical lines, indicating the lineage. The boxes are empty, suggesting that the names and other details of the ancestors are to be filled in. The tree is structured as follows: Generation 1 (François DUCHÊNE °1876) branches into two boxes in Generation 2. Each of these boxes branches into two boxes in Generation 3. This pattern continues, with each box in a generation branching into two boxes in the next generation, resulting in a total of 128 boxes in the seventh generation.
