

Arbre ascendant 7 générations

MINIER Jacques

The diagram is an ancestral tree starting from a single individual, MINIER Jacques, at the bottom left. From him, the tree branches upwards through seven generations. Each generation is represented by a horizontal row of boxes. The boxes in each generation are connected to their parents in the generation below by vertical lines. The tree is symmetrical, with two children per parent in each generation. The boxes are empty, except for the root node which contains the name 'MINIER Jacques'. The tree ends with a final row of 128 boxes at the top.
