

Arbre ascendant 7 générations

FONTENEAU Louis

The diagram is an ancestral tree starting from a single individual, FONTENEAU Louis, in the 7th generation. The tree branches upwards through 6 generations. Each generation consists of rectangular boxes representing individuals. The boxes are connected by lines indicating parent-child relationships. The tree is symmetrical, with each individual in a generation having two children in the next generation. The boxes are empty, suggesting a template for recording names and other details. The text 'FONTENEAU Louis' is written in blue in the box representing the starting individual.
