

Arbre ascendant 7 générations

DESCARPENTRIES Jeann

The diagram is an ancestry chart for 7 generations. It starts with a single individual, 'DESCARPENTRIES Jeann', in the first generation. This individual has two children in the second generation. Each of these children has two children in the third generation, resulting in four individuals. This pattern continues, with each individual in a generation having two children in the next, leading to eight individuals in the fourth generation, sixteen in the fifth, and thirty-two in the sixth. The seventh generation consists of sixty-four individuals. The chart is structured as a tree branching from left to right. Each individual is represented by a rectangular box. The boxes for the first three generations are empty, while the box for 'DESCARPENTRIES Jeann' is filled with blue text. The boxes for the seventh generation are arranged in two columns of 32 boxes each, with each box containing a small, illegible icon or symbol.
